Knowledge organisers - how to use them

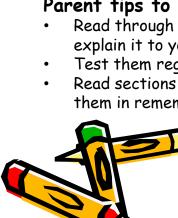

A knowledge organiser (KO) contains set of key facts, knowledge and information that pupils need to know and be able to recall in order to 'master' a unit or topic. It can include key facts and vocabulary.

The aim is to regularly, over the course of the term, use these Knowledge Organisers to rote learn and memorise key knowledge, which will give your child a better understanding of their learning. These will be readily available in the classrooms for the children to refer to, be used by teachers or support staff to pre-teach and recap key learning.

Children use these regularly in lessons and is important they continue to use these to support learning at home. In order for you to be able to support your child at home, these Knowledge Organisers will be available on our school website for you to access, so that you can familiarise yourself with and use how you wish to support their learning, in line with what's being taught in school.

Parent tips to support your child:

- Read through the Knowledge Organiser with your child if you don't understand the content then ask them to
 explain it to you 'teaching' you helps them to reinforce their learning.
- Test them regularly on the spellings of key words until they are perfect. Create quizzes and quizzing each other
- Read sections out to them, missing out key words or phrases that they have to fill in. Miss out more to support them in remembering more

Across 100: E.g 97, 98, 99, 100, 101, 102...

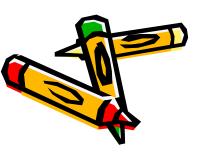

Blending the phonemes: Children will start to put sounds together, to make short words, such as: cat, nap, pin, tap, etc. This is called blending phonemes.

Inferences: Conclusions reached by the child based on their reasoning and from the evidence from the text.

Pairs of number bonds to 20: E.g 12 + 8, 11 + 9, 13 + 7.

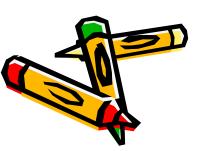

Phase 5: Children entering Phase 5 will already be able to read and spell words with adjacent consonants, such as trap, string and flask. They will also be able to read and spell some polysyllabic words. In Phase 5 children will learn more graphemes (a letter or letters which represent a sound) and phonemes. For example, they already know ai as in rain, but now they will be introduced to 'ay' as in day and 'a-e' as in make.

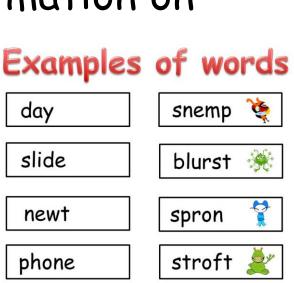

Phonemes: The shortest unit of sound, e,g 's' in 'sat'.
