

YEAR 4 – Unit 5: Measurement – Perimeter

Vocabulary

Area
Perimeter
Centimetres
Millimetres
Metres
Kilometres
Squares
Distance
Length
Width
Rectilinear
Right angle
Regular Polygon
Irregular Polygon
Equivalent

Concept Links/Prior Knowledge

Previous learning that will help you with this unit of work:

- Measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml)
- Measure the perimeter of simple 2-D shapes

Units of Measurement

1 kilometre = 1000 metres
1 metre = 100 centimetres
1 centimetre = 10 millimetres

Area and Perimeter

Area is the amount of space inside a 2D shape.

Perimeter is the total distance around the outside of a 2D shape.

Rectilinear Figures

A rectilinear figure is a 2D shape whose sides all meet at right angles.
